MANAGEMENT REPORT

The Chairman then proceeded to the next item in the Agenda, the Management Report on the Results of Operations for the year 2023. He asked the President, Mr. Adrian Ramos, to report on the Company’s activities and accomplishments for the year 2023.

Ladies and Gentlemen, good afternoon. It is my honor and privilege to present the management report to our shareholders.

The Galoc Field, under Service Contract 14C-1, in which Philodrill has a 10.18% equity stake, continues to be the main source of our company’s revenues. Galoc production decreased by 11% year on year, and with lower crude prices between 2022 and 2023, revenues ultimately decreased from P237.5m to P203.6m. Our company’s share in production costs also increased from P105.4m in 2022 to P138.7m in 2023.

The company registered a Net Loss for 2023 of P33.9m, which is a significant improvement versus the net loss of P339m in 2022. In 2023, the management, in coordination with our external auditors conducted an additional review of our assets and determined that an additional provision to declare a portion of these assets as impaired, amounting to P61.4m, was appropriate. Without this one-time adjustment, net income for the year would have stood at P12.1m.

As a result, the company registered a net income of P16m versus a net loss of P0.9m for the same period in 2023.

Aside from Galoc, Philodrill is an operator or member of several other service contracts under exploration, development, or application with the Department of Energy. These are namely,

***Approved, Confirmed and Ratified by the Stockholders during the 2025 Annual Stockholders Meeting*

SC14C2 or West Linapacan, SC53 Mindoro, SC6B Bonita, SC74 Linapacan, and SC6A Octon. The participating interest of Philodrill is shown on screen. While SC6A is under a new application, as Nominated Area 10, for a new Service Contract with the Department of Energy, the others are in various stages of exploration and development. Of these, SC6B Bonita is the most advanced, with Nido Petroleum entering into a Farm-in Agreement with the consortium in early 2022, which has since been approved by the DOE in December. A new Joint Operating Agreement was signed in July 2023 and an application for a Development and Production Petroleum Service Contract over the old SC 6B was submitted to the DOE in January of this year. With a new operator for the service contract, the goal is to drill the Cadlao-4 well and bring the Cadlao field to production as soon as possible. A drillship has been identified and is currently undergoing repairs in Vietnam to prepare the ship for deployment.

The Board and Management of Philodrill would like to thank all our stockholders, partners, officers and staff for your support. With your help, we will be able to honor the legacy and vision that our late Chairman, Mr. Alfredo C. Ramos had for his beloved company, in the months and years ahead.

Thank you and good afternoon.

After the President's Report, the Chairman opened the floor for any questions, comments or issues that the stockholders may have.

Stockholders were encouraged to participate in the ASM by sending their questions and/or comments during the meeting by email to 2024asm@philodrill.com with subject "ASM Question/Comment". The following questions were raised during the meeting:

1. With the current trend, does the Company have any plans of venturing into renewable energy?
2. Does the ongoing issue with China in the West Philippine Sea affect any of the service contract area where Philodrill operates?

The Vice President for Exploration and Production, Mr. Dennis Panganiban, replied to the question stating that, while the Company continues to prioritize the exploration and development of oil and gas resources, it has already started to explore opportunities in the renewable energy sector. This is in response to the growing demand and efforts for the country to transition to cleaner energy sources. This is also in line with the company's commitment to sustainable and environmentally responsible operations. Furthermore, it will enable the Company to capitalize on the potential for growth and innovation in the alternative energy market.

On the second question, Mr. Panganiban explained that the ongoing issue with China has no direct impact on the Service Contracts that Philodrill is involved in, whether as JV Partner or as Operator. Our Service contracts are within the territorial waters of the Philippines and located outside of the controversial 9-line of China.

After the rendition of the President's Report, with the stockholders being sufficiently informed of the current status of the Company, a motion was raised that the Management Report and Financial Statements for the year 2023 be noted and approved.

The motion having been seconded and there being no objections, the Chairman declared the motion carried and duly approved.
